NEW LIGHT SCHOOL

CHRISTIAN RELIGIOUS EDUCATION (CRE) — STANDARD 4

LEARNING NOTES AND PRACTICE EXAMINATION

TOPIC: THE FAMILY

LEARNING NOTES

1. Meaning of a family

A family is a group of people who are related to one another by birth, marriage or adoption, and who care for and support one another.

2. Types of family

Nuclear family: A family made up of parents and their children.
Extended family: A family that includes other relatives such as grandparents, uncles, aunts and cousins, as well as parents and children.
Single-parent family: A family in which one parent takes the main responsibility for caring for the children.

3. Members of a family

Family members may include a father, mother, children, grandparents and other relatives. Not every family has the same members.

4. Responsibilities in a family

Family members should love one another, respect one another, help with suitable household tasks, care for children and older people, provide guidance, share what they have and solve disagreements peacefully.

5. Importance of a family

A family provides love, care, protection, guidance, a sense of belonging and support. It helps children learn good behaviour, cooperation and respect.

6. Christian teaching about family

The Bible teaches family members to love, honour and care for one another. Children are taught to obey and respect their parents (Ephesians 6:1–3). Parents are encouraged to bring up their children with care and instruction (Ephesians 6:4).

Key words

Family — people related by birth, marriage or adoption. Responsibility — a duty or task a person is expected to do. Respect — treating others with care and honour.

PRACTICE EXAMINATION

CRE — STANDARD 4 | TOPIC: THE FAMILY
